Celebrating Over 20 Years of Innovation

This clothing tag is suitable for use in textile and can withstand printing and dyeing and washing.

This clothing tag is suitable for use in textile and can withstand printing and dyeing and washing. It is also ideal for laundry applications, supply chain management, inventory control, access control or electronic ticketing, asset tracking, and process control. The UHF RFID clothing tag meets the extreme demands needed in applications for contactless tracking of garments in the textile rental and laundry industries.

Technical Specifications

Physical Parameters	
Inlay dimension	125 mm x 7 mm
Package material	coated paper
Operating temperature	-40 °C to 65 °C
Storage temperature	-40 °C to 85 °C
Functional Parameters	
RFID IC QR2213	
RF frequency	860 to 960 MHz
Read distance	5 to 7 m
Compliant standard	ISO/IEC18000-6C
Other Parameters	
RoHS	compliant with RoHS standard
Data retention	> 10 years
Read/Write times	100000
Customization	Logo and graphic printing
