

***This desktop planar antenna is designed to strengthen the signal power, increase the wireless range, reduce dead spots, and provide reliability at high data rates.***

This high performance desktop planar antenna features well architecture and durable housing and is designed to strengthen the signal power, increase the wireless range, reduce dead spots, and provide reliability at high data rates. With built-in tuneable circuit, it could be calibrated to enable the antenna to work in the best state by making fine adjustment when parameter deviation occurs due to environmental issues. The antenna is mainly used for batch tag reading applications and offers a read range of 60 cm when using with 4 W readers. It is well suited for jewellery inventory, chip management, retail and settlement, etc

**Technical Specifications**

Operating Frequency	13.56Mhz
Antenna Impedance	50 Ω
RF Interface	SMA
Maximum Power	6W
Read Range	60CM
Housing Material	Acrylic
Dimension	300mm x 300mm x 18mm
Weight	980g
